

To whom it may concern,

Our church ordered “The Old Fortress” playground set from PlaygroundUS to replace the aging playground we had on the church property. This was a tremendous purchase for our church from a top-quality company.

Communication with the company was excellent, and the playground set was delivered securely, with very clear and precise installation instructions. Utilizing a group of church members, the set was installed in a couple of days, with no difficulty. The playground is made of high quality, strong material, and is very pleasing to the eye. Safety was a key element in choosing the set, and it has not disappointed. Hearing the laughter and excitement of the children from our church, as well as the children from the community who use it, has been an uplifting experience.

Thank you PlaygroundUS for providing such top-quality equipment. If we have future needs, we definitely will be looking at you!

Sincerely,

Bill Gowder
